

CLAIMS

WE claim:

- 5           1. A wound dressing comprising:  
            a support strip of material having a body-attaching side; and  
            also having adhesive being disposed about and upon said body  
            attaching side;  
            a pad member being securely attached upon said body-  
10   attaching side of said support strip of material;  
            at least one wound-healing agent being disposed upon said  
            pad member; and  
            protective strips of material being removably disposed over  
            said body-attaching side including said pad member and said at  
15   least one wound-healing agent.
2. A wound dressing as described in claim 1, wherein said  
            support strip of material is made of flexible plastic and has a  
            plurality of aerated openings being spaced about and being disposed  
20   through said support strip of material.
3. A wound dressing as described in claim 1, wherein said  
            pad member is generally a gauze and is centrally attached upon said  
            body-attaching side of said support strip of material.  
25
4. A wound dressing as described in claim 3, wherein said at  
            least one wound-healing agent includes a syrupy substance known  
            as honey.

5. A wound dressing as described in claim 4, wherein said at least one wound-healing agent also includes a wound-sealing wax being disposed upon said gauze along with said honey.

5        6. A wound dressing as described in claim 5, wherein said protective strips of material are made of flexible fabric and have end portions which overlap one another when detachably attached to said support strip of material.
